

STEREO MICROSCOPE XTL6745

Features

- ◆ User friendly, precise partner
- ◆ Fully coated optical system, will give sharp and clear images with extremely good flatness and contrast.
- ◆ With the large zoom rang and long-working distance, it is characterized by brand-new optical design, the best reproduction and true color image.
- ◆ These are ideal for high-magnification, high-resolution observation in biological research, precision-oriented semi-conductor and other industries.
- ◆ The XTL6745 with 0.67X~4.5X zoom magnification, inclination angles of 45 ° respectively, the working distance can be up to 105mm when the lens is 1X.
